Autonomic Nervous System

- Autonomic and Behavioral Responses of Children With Autism to Auditory Stimuli, 66(5), 567-576

Bandages

- Effectiveness of the California Tri-Pull Taping Method for Shoulder Subluxation Poststroke: A Single-Subject ABA Design, 66(6), 727-736

Behavior

Sensory Processing, Problem Behavior, Adaptive Behavior, and Cognition in Preschool Children With Autism Spectrum Disorders, 66(5), 586-594

Behavioral Symptoms

Autonomic and Behavioral Responses of Children With Autism to Auditory Stimuli, 66(5), 567-576

Biostatistics

New Single-Subject and Small-*n* Design in Occupational Therapy: Application to Weight Loss in Obesity, 66(4), 455-462

Breathing Exercises

Qigong Massage for Motor Skills in Young Children With Cerebral Palsy and Down Syndrome, 66(3), 348-355

Caregivers

Psychometrics of the Self-Report Safe Driving Behavior Measure for Older Adults, 66(2), 233-241

Test-Retest Reliability of the Sensory Profile Caregiver Questionnaire, 66(4), 483-487

Carpal Tunnel Syndrome

Score Reliability and Construct Validity of the Flinn Performance Screening Tool for Adults With Symptoms of Carpal Tunnel Syndrome, 66(3), 330-337

Centers for Disease Control and Prevention (US)

From the Desk of the Guest Editors—Unprecedented Opportunities in Fall Prevention for Occupational Therapy Practitioners, 66(2), 127-130

Cerebral Palsy

Functional Impact of Constraint Therapy and Bimanual Training in Children With Cerebral Palsy: A Randomized Controlled Trial, 66(6), 672-681

Multicenter Randomized Controlled Trial of Pediatric Constraint-Induced Movement Therapy: 6-Month Follow-Up, 66(1), 15-23

Predicting the Effects of Cerebral Palsy Severity on Self-Care, Mobility, and Social Function, 66(4), 422-429

Qigong Massage for Motor Skills in Young Children With Cerebral Palsy and Down Syndrome, 66(3), 348-355

Checklist

Development and Validation of Tools for Evaluation of Orthosis Fabrication, 66(6), 747-754

Child

Assessing the Sensitivity of the Evaluation of Social Interaction: Comparing Social Skills in Chil-

dren With and Without Disabilities, 66(6), 709-717

Effect of Pencil Grasp on the Speed and Legibility of Handwriting in Children, 66(6), 718-726

Validating the Use of the Evaluation Tool of Children's Handwriting—Manuscript to Identify Handwriting Difficulties and Detect Change in School-Age Children, 66(4), 414-421

Child, Preschool

Test-Retest Reliability of the Sensory Profile Caregiver Questionnaire, 66(4), 483-487

Child Behavior

Cross-Cultural Comparison of Sensory Behaviors in Children With Autism, 66(5), e77-e80

Efficacy of the Get Ready to Learn Yoga Program Among Children With Autism Spectrum Disorders: A Pretest-Posttest Control Group Design, 66(5), 538-546

Child Behavior Disorders

Neurocognitive Habilitation Therapy for Children With Fetal Alcohol Spectrum Disorders: An Adaptation of the Alert Program®, 66(1), 24-34

Child Development Disorders, Pervasive

Sensory Processing, Problem Behavior, Adaptive Behavior, and Cognition in Preschool Children With Autism Spectrum Disorders, 66(5), 586-594

Cognition

Dynamic Lowenstein Occupational Therapy Cognitive Assessment: Evaluation of Potential to Change in Cognitive Performance, 66(2), 207-214

Dynamic Lowenstein Occupational Therapy Cognitive Assessment—Geriatric Version (DLOTCAG): Assessing Change in Cognitive Performance, 66(3), 311-319

Pilot Randomized Controlled Trial Investigating Cognitive Strategy Use to Improve Goal Performance After Stroke, 66(1), 104-109

Cognition Disorders

Dynamic Lowenstein Occupational Therapy Cognitive Assessment: Evaluation of Potential to Change in Cognitive Performance, 66(2), 207-214

Cognitive Therapy

Neurocognitive Habilitation Therapy for Children With Fetal Alcohol Spectrum Disorders: An Adaptation of the Alert Program®, 66(1), 24-34

Combat Disorders

Effects of Sensory-Enhanced Yoga on Symptoms of Combat Stress in Deployed Military Personnel, 66(1), 59-68

Communication

Modifying Health Outcome Measures for People With Aphasia, 66(1), 42-50

Communication Media

Eleanor Clarke Slagle Lecture—PromOTing Occupational Therapy: Words, Images, and Actions, 66(6), 652-671

Community Health Services

Effect of Occupation- and Activity-Based Interventions on Instrumental Activities of Daily Living Performance Among Community-Dwelling Older Adults: A Systematic Review, 66(3), 292-300

Feasibility of Interdisciplinary Community-Based Fall Risk Screening, 66(2), 161-168

Methodology for the Systematic Reviews on Occupation- and Activity-Based Intervention Related to Productive Aging, 66(3), 271-276

Systematic Review of Occupation- and Activity-Based Health Management and Maintenance Interventions for Community-Dwelling Older Adults, 66(3), 277-283

Systematic Review of the Effect of Home Modification and Fall Prevention Programs on Falls and the Performance of Community-Dwelling Older Adults, 66(3), 284-291

Comparative Effectiveness Research

Pilot Comparative Study of Unilateral and Bilateral Robot-Assisted Training on Upper-Extremity Performance in Patients With Stroke, 66(2), 198-206

Randomized Controlled Trial of Daily Total End Range Time (TERT) for Capener Splinting of the Stiff Proximal Interphalangeal Joint, 66(2), 243-248

Comprehension

Modifying Health Outcome Measures for People With Aphasia, 66(1), 42-50

Computer Peripherals

Computer Use Problems and Accommodation Strategies at Work and Home for People With Systemic Sclerosis: A Needs Assessment, 66(3), 368-375

Computer Simulation

Certified Driver Rehabilitation Specialists' Preferred Situations for Driving Simulator Scenarios, 66(1), 110-114

Computers

Computer Use Problems and Accommodation Strategies at Work and Home for People With Systemic Sclerosis: A Needs Assessment, 66(3), 368-375

Continental Population Groups

The Issue Is—Is Reporting Race and Ethnicity Essential to Occupational Therapy Evidence? 66(1), 115-119

Cross-Cultural Comparison

Cross-Cultural Comparison of Sensory Behaviors in Children With Autism, 66(5), e77-e80

Culture

Effect of a Group Adherence Intervention for Mexican-American Older Adults With Type 2 Diabetes, 66(4), 447-454

Effect of an Occupation-Based Cultural Heritage Intervention in Long-Term Geriatric Care: A Two-Group Control Study, 66(2), 224-232

Curriculum

Patient Handling Methods Taught in Occupational Therapy Curricula, 66(4), 463-470

Survey of the Low Vision Rehabilitation Curricula in Occupational Therapy and Occupational Therapy Assistant Programs, 66(6), e105-e109

Dangerous Behavior

Rater Reliability and Rater Effects of the Safe Driving Behavior Measure, 66(1), 69-77

Data Collection

Survey of the Low Vision Rehabilitation Curricula in Occupational Therapy and Occupational Therapy Assistant Programs, 66(6), e105-e109

Decision Making

Relationship Between Intuition and Emotional Intelligence in Occupational Therapists in Mental Health Practice, 66(1), 88-96

Dental Care

Oral Care and Sensory Concerns in Autism, 66(5), e73-e76

Depression

Effect of Life Review Writing on Depressive Symptoms in Older Adults: A Randomized Controlled Trial, 66(4), 438-446

Fear of Falling and Its Relationship With Anxiety, Depression, and Activity Engagement Among Community-Dwelling Older Adults, 66(2), 169-176

Developmental Coordination Disorder

Adolescents and Adults Coordination Questionnaire: Development and Psychometric Properties, 66(4), 406-413

Developmental Disabilities

Comparing the Functional Performance of Children and Youths With Autism, Developmental Disabilities, and No Disability Using the Revised Pediatric Evaluation of Disability Inventory Item Banks, 66(5), 607-616

Development of the Comprehensive Observations of Proprioception (COP): Validity, Reliability, and Factor Analysis, 66(6), 691-698

Precursors and Trajectories of Sensory Features: Qualitative Analysis of Infant Home Videos, 66(5), e81-e84

Proprioceptive Processing Difficulties Among Children With Autism Spectrum Disorders and Developmental Disabilities, 66(5), 621-624

Reliability and Validity of the McDonald Play Inventory, 66(4), e52-e60

Diabetes Mellitus, Type 2

Effect of a Group Adherence Intervention for Mexican-American Older Adults With Type 2 Diabetes, 66(4), 447-454

Diagnostic Techniques and Procedures

Score Reliability and Construct Validity of the Flinn Performance Screening Tool for Adults With Symptoms of Carpal Tunnel Syndrome, 66(3), 330-337

Diagnostic Techniques, Neurological

Centennial Vision—Occupational Therapy in Neurological Disorders: Looking Ahead to the American Occupational Therapy Association's Centennial Vision, 66(6), e110-e121

Diffusion of Innovation

The Issue Is—Neurorehabilitation: Are We Doing All That We Can? 66(4), 488-493

Disability Evaluation

Comparing the Functional Performance of Children and Youths With Autism, Developmental Disabilities, and No Disability Using the Revised Pediatric Evaluation of Disability Inventory Item Banks, 66(5), 607-616

Disabled Children

Assessing the Sensitivity of the Evaluation of Social Interaction: Comparing Social Skills in Children With and Without Disabilities, 66(6), 709-717

Initial Development of the Health Promoting Activities Scale to Measure the Leisure Participation of Mothers of Children With Disabilities, 66(1), e1-e10

Discriminant Analysis

Validating the Use of the Evaluation Tool of Children's Handwriting—Manuscript to Identify Handwriting Difficulties and Detect Change in School-Age Children, 66(4), 414-421

Down Syndrome

Qigong Massage for Motor Skills in Young Children With Cerebral Palsy and Down Syndrome, 66(3), 348-355

Dupuytren Contracture

Interrater Reliability in Finger Joint Goniometer Measurement in Dupuytren's Disease, 66(1), 98-103

Early Diagnosis

Sensory and Motor Behaviors of Infant Siblings of Children With and Without Autism, 66(5), 556-566

Education

Impact of a Contextual Intervention on Child Participation and Parent Competence Among Children With Autism Spectrum Disorders: A Pretest-Posttest Repeated-Measures Design, 66(5), 520-528

Education, Professional

Patient Handling Methods Taught in Occupational Therapy Curricula, 66(4), 463-470

Survey of the Low Vision Rehabilitation Curricula in Occupational Therapy and Occupational Therapy Assistant Programs, 66(6), e105-e109

Education, Special

Efficacy of the Get Ready to Learn Yoga Program Among Children With Autism Spectrum Disorders: A Pretest-Posttest Control Group Design, 66(5), 538-546

Educational Measurement

Development and Validation of Tools for Evaluation of Orthosis Fabrication, 66(6), 747-754

Electric Stimulation Therapy

Neuromuscular Electrical Stimulation-Assisted Grasp Training and Restoration of Function in the Tetraplegic Hand: A Case Series, 66(4), 471-477

Emotional Intelligence

Relationship Between Intuition and Emotional Intelligence in Occupational Therapists in Mental Health Practice, 66(1), 88-96

Environment

Cross-Cultural Comparison of Sensory Behaviors in Children With Autism, 66(5), e77-e80

Effect of Classroom Modification on Attention and Engagement of Students With Autism or Dyspraxia, 66(5), 511-519

Environment Design

Systematic Review of the Effect of Home Modification and Fall Prevention Programs on Falls and the Performance of Community-Dwelling Older Adults, 66(3), 284-291

Equipment Design

Development and Validation of Tools for Evaluation of Orthosis Fabrication, 66(6), 747-754

Use of Robotics in Spinal Cord Injury: A Case Report, 66(1), 51-58

Splints

Randomized Controlled Trial of Daily Total End Range Time (TERT) for Capener Splinting of the Stiff Proximal Interphalangeal Joint, 66(2), 243-248

State Health Plans

What Is Essential in the Essential Health Benefits? And Will Occupational Therapy Benefit? 66(4), 389-394

Stress Disorders, Posttraumatic

Effects of Sensory-Enhanced Yoga on Symptoms of Combat Stress in Deployed Military Personnel, 66(1), 59-68

Stroke

Behavioral, Neurophysiological, and Descriptive Changes After Occupation-Based Intervention, 66(6), e98-104

Dynamic Lowenstein Occupational Therapy Cognitive Assessment: Evaluation of Potential to Change in Cognitive Performance, 66(2), 207-214

Dynamic Lowenstein Occupational Therapy Cognitive Assessment—Geriatric Version (DLOTCA-G): Assessing Change in Cognitive Performance, 66(3), 311-319

Effect of Imagery Perspective on Occupational Performance After Stroke: A Randomized Controlled Trial, 66(3), 320-329

Effectiveness of the California Tri-Pull Taping Method for Shoulder Subluxation Poststroke: A Single-Subject ABA Design, 66(6), 727-736

Pilot Comparative Study of Unilateral and Bilateral Robot-Assisted Training on Upper-Extremity Performance in Patients With Stroke, 66(2), 198-206

Pilot Randomized Controlled Trial Investigating Cognitive Strategy Use to Improve Goal Performance After Stroke, 66(1), 104-109

Predictive Ability of 2-Day Measurement of Active Range of Motion on 3-Mo Upper-Extremity Motor Function in People With Poststroke Hemiparesis, 66(1), 35-41

Subacute Care

Impact of Vision Impairment on Intensity of Occupational Therapy Utilization and Outcomes in Subacute Rehabilitation, 66(2), 215-223

Support Groups

Effect of a Group Adherence Intervention for Mexican-American Older Adults With Type 2 Diabetes, 66(4), 447-454

Task Performance and Analysis

Effect of Occupation- and Activity-Based Interventions on Instrumental Activities of Daily Living Performance Among Community-Dwelling Older Adults: A Systematic Review, 66(3), 292-300

Influence of Task and Tool Characteristics on Scissor Skills in Typical Adults, 66(6), e89-e97

Pilot Randomized Controlled Trial Investigating Cognitive Strategy Use to Improve Goal Performance After Stroke, 66(1), 104-109

Weekly Calendar Planning Activity (WCPA): A Performance-Based Assessment of Executive Function Piloted With At-Risk Adolescents, 66(6), 699-708

Telemedicine

Telehealth Opportunities in Occupational Therapy Through the Affordable Care Act, 66(2), 131-136

Therapy, Computer-Assisted

Effect of Robotic-Assisted Three-Dimensional Repetitive Motion to Improve Hand Motor Function and Control in Children With Handwriting Deficits: A Nonrandomized Phase 2 Device Trial, 66(6), 682-690

Time Factors

Randomized Controlled Trial of Daily Total End Range Time (TERT) for Capener Splinting of the Stiff Proximal Interphalangeal Joint, 66(2), 243-248

Tool Use Behavior

Influence of Task and Tool Characteristics on Scissor Skills in Typical Adults, 66(6), e89-e97

Translational Medical Research

The Issue Is—How Do We Change Practice When We Have the Evidence? 66(5), e85–e88

Translational Research

The Issue Is—Comparison of the Occupational Therapy Research Agenda With the National Institutes of Health Roadmap for Medical Research, 66(2), 250–253

Trauma, Nervous System

The Issue Is—Neurorehabilitation: Are We Doing All That We Can? 66(4), 488–493

Treatment Outcome

Centennial Vision—Occupational Therapy in Neurological Disorders: Looking Ahead to the American Occupational Therapy Association's Centennial Vision, 66(6), e110–e121

Centennial Vision—State of Mental Health Research in the American Journal of Occupational Therapy, 2008–2011, 66(2), e30–e33

From the Desk of the Editor and Associate Editor—Intervention Fidelity: A Necessary Aspect of Intervention Effectiveness Studies, 66(4), 387–388

Effect of Life Review Writing on Depressive Symptoms in Older Adults: A Randomized Controlled Trial, 66(4), 438–446

Effect of Occupation- and Activity-Based Interventions on Instrumental Activities of Daily Living Performance Among Community-Dwelling Older Adults: A Systematic Review, 66(3), 292–300

Effect of Tailored Activity Pacing on Self-Perceived Joint Stiffness in Adults With Knee or Hip Osteoarthritis, 66(3), 363–367

Effectiveness of the California Tri-Pull Taping Method for Shoulder Subluxation Poststroke: A Single-Subject ABA Design, 66(6), 727–736

Methodology for the Systematic Reviews on Occupation- and Activity-Based Intervention Related to Productive Aging, 66(3), 271–276

Neuromuscular Electrical Stimulation-Assisted Grasp Training and Restoration of Function in the Tetraplegic Hand: A Case Series, 66(4), 471–477

Systematic Review of the Effect of Home Modification and Fall Prevention Programs on Falls and the Performance of Community-Dwelling Older Adults, 66(3), 284–291

Upper Extremity

Predictive Ability of 2-Day Measurement of Active Range of Motion on 3-Mo Upper-Extremity Motor Function in People With Poststroke Hemiparesis, 66(1), 35–41

Use of Robotics in Spinal Cord Injury: A Case Report, 66(1), 51–58

Utilization

Impact of Vision Impairment on Intensity of Occupational Therapy Utilization and Outcomes in Subacute Rehabilitation, 66(2), 215–223

Utilization Review

Current Occupational Therapy Publications in Home Health: A Scoping Review, 66(3), 338–347

Validation Studies

Validating the Use of the Evaluation Tool of Children's Handwriting—Manuscript to Identify Handwriting Difficulties and Detect Change in School-Age Children, 66(4), 414–421

Videotape Recording

Precursors and Trajectories of Sensory Features: Qualitative Analysis of Infant Home Videos, 66(5), e81–e84

Vision, Low

Survey of the Low Vision Rehabilitation Curricula in Occupational Therapy and Occupational Therapy Assistant Programs, 66(6), e105–e109

Vision Disorders

Impact of Vision Impairment on Intensity of Occupational Therapy Utilization and Outcomes in Subacute Rehabilitation, 66(2), 215–223

Wounds and Injuries

Improving Older Trauma Patients' Outcomes Through Targeted Occupational Therapy and Functional Conditioning, 66(4), 431–437

Writing

Effect of Life Review Writing on Depressive Symptoms in Older Adults: A Randomized Controlled Trial, 66(4), 438–446

Yoga

Effects of Sensory-Enhanced Yoga on Symptoms of Combat Stress in Deployed Military Personnel, 66(1), 59–68

Efficacy of the Get Ready to Learn Yoga Program Among Children With Autism Spectrum Disorders: A Pretest–Posttest Control Group Design, 66(5), 538–546
